The electronic money is credited to and held on the Client's E2E account.
- 4.4. The specific method of depositing/transferring funds to the E2E account is selected by the Client in the account by selecting the "Add money" function, which contains instructions for depositing money for each method of payment.
- 4.5. The nominal value of electronic money coincides with the value of money deposited/transferred to the E2E account (after deduction of standard commission fee applicable to a particular payment method).
- 4.6. Electronic money held on the E2E account is not a deposit and E2E does not, in any circumstances, pay any interest for electronic money held on the E2E account and does not provide any other benefits associated with the time period the electronic money is stored.
- 4.7. The Client can create and have multiple E2E accounts on the same personal account and use them at its discretion (however, the Client can have only one personal account).

- 4.8. At the request of the Client, electronic money held on its E2E account shall be redeemed at their nominal value at any time, except for cases set forth in the agreement when limitations are applied to the account of the Client.

- 4.10. No specific conditions for electronic money redemption, that would differ from the standard conditions for transfers and other payment operations performed on the E2E account, shall be applied. The amount of redeemed/transferred electronic money is chosen by the Client.
- 4.11. No additional fee for electronic money redemption is applied. In the event of redemption of electronic money, the Client pays the usual commission fee for a money transfer or withdrawal which depends on the method of electronic money transfer/withdrawal chosen by the Client. Standard E2E commission fees for money transfer/withdrawal are applied.
- 4.12. Provided that the Client terminates the agreement and applies with the request to close its E2E account and delete its account from the system, or E2E terminates the provision of E2E account services to the Client and deletes Client's account from the system in cases provided in the agreement, money held on the E2E Client's account shall be transferred to the Client's bank account or to the account in another electronic payment system indicated by the Client. E2E has the right to deduct from the repaid money the amounts that belong to E2E (fees for services provided by E2E and expenses which have not been paid by the Client, including but not limited to, fines and damages incurred by E2E due to a breach of the agreement committed by the Client, which have been imposed by international payment card organizations, other financial institutions and/or state institutions). In the event of a dispute between E2E and the Client, E2E has the right to detain money under dispute until the dispute is resolved.

  - 5.2.3. to accounts in other electronic payment systems specified in the system.
- 5.3. After the Client has submitted a payment order to perform an international payment transfer, the supplement "Conditions of execution of international payment transfers" is applicable in addition to the present agreement.
- 5.4. Funds may be held on E2E account in different currency. Keeping funds in different currency, the Client undertakes responsibility for possible depreciation of money due to changes in exchange rates. Currency exchange is based on the exchange rate of E2E, which is valid at the moment of conversion and is constantly updated and published on its website.
- 5.5. Opening and maintenance of E2E account is free of charge, except for cases defined in the agreement and its supplements. If no operations have been performed on the account of the Client for at least a year E2E shall communicate to the Client in an agreed form that E2E:
  - 5.5.1. may close its bank account due to inactivity;
  - 5.5.2. applies commission and specify what commission is applicable;
  - 5.5.3. upon Client's request may close or transfer the account.
- 5.6. A bank or another electronic money transfer system may apply fees for transferring money from E2E Client's account to the Client's bank account, card or a payment account of another electronic payment system, as well as for transferring money from a bank account, card or another electronic payment system to E2E account.
- 5.7. Fees for E2E's services are deducted from the Client's E2E account. In case the amount of money on the E2E account is less than the amount

of the payment transfer and the price of the E2E service, the payment transfer is not executed.

5.8. When a different than SEPA or [TARGET2](#) transfer is performed and the Client transfers money from its E2E account to accounts in banks or other electronic payment institutions, E2E is indicated as the payer. Together with the payment transfer the recipient is given the following information which in dependence on technical options can be transferred in one or several of the below indicated ways:

5.8.1. detailed information about the payer – Client is given in the field of the primary payer provided it is supported by the relevant e-banking or payment system;

5.8.2. detailed information about the payer – Client is given in the field of payment purpose.

5.9. In case the payer indicates incorrect data of the recipient and the payment order is executed according to the data provided by the payer (e.g. the payer indicates a wrong account number), it shall be considered that E2E has fulfilled the obligations properly and shall not repay the transferred amount to the payer. The payer shall directly contact the person, who has received the transfer, on the issue of returning the money.

5.10. The Client is obliged to provide a payment order for the execution of the payment transaction in accordance with the instructions specified in the system and valid at the moment of transfer. In case the Client is the recipient, it is obligated to provide detailed and precise information to the payer so that the payment order for the payment transaction in all cases complies with the instructions in the system and valid at the moment of transfer. Before sending a payment order for the execution of a payment transaction or sending information to another payer, the Client is required to check and update the instructions on filling in the account.

5.11. If the payer submits an incorrect payment order or indicates incorrect data for the payment transfer, but the payment transfer has not been executed yet, the payer may request to correct the payment order.

5.12. If E2E cannot credit funds indicated in the payment order to the recipient due to errors of the payer made in the payment order, but the payer requests to return the funds indicated in the payment order, the payment order may be cancelled and funds may be returned to the payer, but only under a written request of the payer and if the recipient

agrees to return the funds to the payer (if the recipient can be identified). In such a case fees for cancellation of the payment order indicated in the system are applied.

- 5.13. In all cases, when E2E receives a payment order but funds cannot be credited due to errors in the payment order or insufficiency of information, and neither the payer nor the recipient has contacted E2E for specification of the payment order or return of the funds, E2E undertakes all possible measures to track the payment operation in order to receive accurate information and execute the payment order. To track the payment operation, the following measures may be used:
  - 5.13.1. if E2E has contact details of the payer (email address or phone number), E2E contacts the payer for the payment order specification;
  - 5.13.2. if E2E does not have contact details of the payer and neither the payer nor the recipient contacts E2E regarding the funds indicated in the payment order, E2E contacts the provider of payment services of the payer which has sent the funds indicated in the payment order with a request to contact the payer for the information specification. This measure is applied if there are possibilities to contact the provider of payment services of the payer by electronic means:
- 5.14. In all cases specified in article 5.13, the fee for specification of the payment order indicated in the system is applied by debiting it from the amount of the transfer before crediting the transfer to the account of the Client – recipient.
- 5.15. In case it is impossible to apply neither of the measures listed in clause 5.13 for tracking the payment operation and in other cases when it is still impossible to identify the recipient according to the indicated or corrected data, the funds are stored in E2E system until the payer or the recipient contacts and additional data allowing to credit the funds to the recipient is provided (after debiting the fee for specifying/correcting the payment order from the transferred amount before crediting it to the account of the Client – recipient). Such funds may also be returned to the payer under a written request of the payer. In this case the fee for returning the funds, which is indicated in the system, will be debited from the transferred amount before returning it to the payer.
- 5.16. The Client, having received money that has been credited to its E2E account by mistake or in other ways that have no legal basis, is obliged to notify E2E about it. The Client has no right to dispose of money that does not belong to it. In such cases E2E has the right and the Client

gives an irrevocable consent to deduct the money from the its E2E account without the Client's order. If the amount of money on the E2E Client's account is insufficient to debit the money credited by mistake, the Client unconditionally commits to repay E2E the money credited by mistake in 3 (three) business days from the receipt of such request from E2E.

- 5.17. The Client has the right to change limits on payment transfers for the payment account by completing an additional account confirmation in accordance with the procedure established in the system and setting other limits for transfers that will come into force after 12 hours after the additional verification procedures. The Client may set the limits at his own discretion, however E2E has the right to limit the size of the limits. The Client may check the applied limits in the system. The Client will be notified about the limit's entry into force by email.
- 5.18. The Client may check the account balance and history by logging in to the account. There is also information about all applied commission fees and other fees deducted from the account of the Client during a selected period of time.
- 5.19. The Client confirms that:
  - 5.19.1. incoming funds on its E2E account are not obtained as a result of criminal or other illegal activity;
  - 5.19.2. the Client will not use services provided by E2E for any illegal purposes, including actions and operations in order to legalise money received for a criminal or illegal activity.
- 5.20. The Client can manage the E2E account and perform payment operations from the E2E account:
  - 5.20.1. via the internet, by logging in to its personal account;
  - 5.20.2. by payment instruments linked to the E2E account (the supplement "Payment Instruments" is applied after the Client has agreed to conditions of the supplement);
  - 5.20.3. by other instruments indicated by E2E after the Client has agreed to conditions of using such instruments.
- 5.21. Client's confirmations, orders, requests, notifications and other actions performed through websites of third persons or other places by logging in to its E2E account and identifying itself in this way are treated as conclusion of a deal confirmed by electronic signature.

## 5.22. Managing E2E account via the internet:

5.22.1. in order to execute a payment operation via the internet, the Client must fill in a payment order in the system and submit it for execution, electronically confirming in the system its consent to execute the payment order.

5.22.2. submission of the payment order in the system is an agreement of the Client to execute the payment operation and cannot be cancelled (cancellation of the payment order is only possible until the execution of the payment order has been started – status of the payment order and possibility of cancellation are visible on the account of the client).

5.22.3. in case the payment order has been filled in incorrectly, the payment transfer is not executed, unless E2E at its own initiative in exceptional cases corrects the payment order or has a sufficient amount of information to determine the correctness of information to execute the payment order under a regular procedure.

## **6. Reception of the payment order, requirements applied to the payment order and refusal to execute the payment order**

6.1. Provided the Client is the payer, the payment order is considered received by E2E (calculation of the time period of execution of such payment order starts) on the day of its reception, or, if the moment of reception of the payment order is not a business day of E2E, the payment order is considered received on the nearest business day of E2E.

6.2. The payment order was received by E2E on a business day of E2E but not on business hours set by E2E, is considered received on the nearest business day of E2E.

6.3. Payment orders inside the E2E system are executed immediately (up to a few minutes, unless the payment operation is suspended due to cases set forth by legal acts and the present agreement), regardless of business hours of E2E.

6.4. E2E has the right to record and store any payment orders submitted by any of the means agreed on with E2E, and to record and store information about all payment operations performed by the Client or according to payment orders of the Client subject to the provisions of the Data Protection and Sensitive Data Storage Policies of E2E. Records mentioned in the present clause may be submitted by E2E to the Client and/or third persons, who have the right to receive such data under the basis set forth in the legislation, as evidence confirming the submission of payment orders and/or executed payment operations.

- 6.5. Payment orders submitted by the Client shall comply with requirements for submission of such payment order and/or content of the payment order set by the legal acts or by E2E. Payment orders submitted by the Client shall be formulated clearly, unambiguously, shall be executable and contain clearly stated will of the Client. E2E does not undertake responsibility for errors, discrepancies, repetitions and/or contradictions in payment orders submitted by the Client, including but not limited to, correctness of requisites of the payment order submitted by the client. If the payment order submitted by the Client does not contain enough data or contains deficiencies, E2E, regardless of the nature of deficiencies in the payment order, can refuse to execute such payment order, or execute it in accordance with data given in the payment order.
- 6.6. E2E has the right to refuse to execute a payment order in case of a reasonable doubt that the payment order has been submitted by the Client or a Client's representative, payment order or the submitted documents are legitimate. In such cases, E2E has the right to demand from the Client to additionally confirm the submitted payment order and/or submit documents confirming the rights of persons to manage the funds held on the account or other documents indicated by E2E in a way acceptable to E2E at expense of the Client. In cases mentioned in this clause E2E acts with the aim to protect legal interests of the Client, E2E and/or other persons, thus, E2E does not undertake the responsibility for losses which may arise due to refusal to execute the submitted payment order.
- 6.7. The Client shall ensure a sufficient amount of money in a relevant currency on its account to execute the payment order.

Before executing the payment, order submitted by the Client, E2E has the right to demand from the Client documents which prove the legal source of money related to the payment order together with any other documentation as per AML Policy and relevant AML laws. In case the Client does not submit such documents, E2E has the right to refuse to execute the payment order of the Client.
- 6.9. E2E has the right to involve third parties to partially or fully execute the payment order of the Client if the Client's interests and/or the essence of the payment order require so. In the event that the essence of the payment order of the Client requires sending and executing the payment further by another financial institution, but this institution suspends the payment order, E2E is not responsible for such actions of the financial

institution but makes attempts to find out the reasons for the suspension of the payment order. E2E has the right to suspend and/or terminate the execution of the payment order of the Client, if required by law or in case it is necessary for other reasons beyond control of E2E.

- 6.10. In case E2E has refused to execute the payment, order submitted by the Client, E2E shall immediately inform the Client thereon or create necessary conditions for the Client to get introduced to such notification, except when such notification is technically impossible or forbidden by legal acts.
- 6.11. E2E shall not accept and execute payment orders of the Client to perform operations on the account of the Client if funds on the account are arrested, the right of the Client to manage the funds is otherwise legally limited, or in case operations are suspended by applicable legal acts.
- 6.12. If money transferred by the payment order is returned due to reasons beyond the control of E2E (inaccurate data of the payment order, the account of the recipient is closed, etc.), the returned amount is credited to the account of the Client. Fees paid by the payer for the payment order execution are not returned, and other fees related to the returning of money and applied to E2E can be deducted from the account of the Client.
- 6.13. Payment transfers initiated by E2E may be standard and urgent. The manner of the payment transfer is selected by the Client. If the Client does not select the payment transfer manner, it is considered that the Client has initiated a standard payment transfer.

## **7. Providing and cancellation of the consent, cancellation of the payment order**

- 7.1. The payment transaction is considered authorized only if the payer provides a consent. The consent for payment given to E2E intermediary is considered to be given to E2E. The Client (payer) may provide consent in the manner determined by E2E or agreed upon with the Client. The consent submitted in writing must be signed by the Client or his legal representative. The consent may also be confirmed by electronic signature, password, codes and/or other identity verification means. In all cases stipulated in this clause, the consent shall be deemed duly approved by the Client (payer), having the same legal validity as the paper document (the consent) signed by the Client (his representative), is permissible as a mean of proof in resolving disputes between E2E and the Client in courts and other institutions. The Client shall not be entitled to contest the payment operation executed by E2E if the payment order

has been approved by the consent provided in the manner set out in this clause.

If E2E verifies the payment order and establishes an obvious discrepancy between the unique identifier provided to E2E and the name and surname (title) of the account owner, E2E has the right to refuse to execute such payment operation.

E2E does not hold the responsibility if the unique identifier is not provided in the payment order or it is incorrect, and/or the provider of payment services of the recipient has set a different unique identifier for appropriate execution of such payment operation (crediting of money to the payment account of the recipient).
- 7.7. If necessary and/or required by institutions of another states, E2E has the right to receive an additional information (e.g., name and surname/title of the recipient, a payment code) required for the appropriate execution of the payment order.

- 11.9. The account and/or the payment instrument may be blocked at the initiative of the Client if the Client submits an appropriate request to E2E and informs E2E that the payment instrument of the Client has been stolen or lost, or funds on the account and/or the payment instrument are used or may be used illegally. E2E has the right to demand from the Client to later confirm the orally submitted request to block the account and/or payment instrument in written or another acceptable to E2E way. If the account and/or the payment instrument has been blocked at the initiative of the Client, E2E has the right to cancel blockage only after receiving a written request from the Client, unless the agreement states otherwise. E2E has the right to replace the blocked payment instrument with a new one.
- 11.10. E2E is not liable for losses incurred by the Client due to suspension of service provision, blockage of the account and/or payment instrument or other actions if those actions have been performed in accordance with the procedures stated in the agreement or its supplements and under circumstances and on the basis specified in the mentioned documents.

In case E2E regains a part of amounts paid to third parties, E2E undertakes to return the regained amounts to the Client immediately.
